

# The Victory Māra Kai Timeline

## Next 12 months:

- Installing a new irrigation system
- Filling pot holes/levelling the garden
- Fixing the propagation shed
- Building new storage
- Improving the education area

01.

## Next 2 Years:

- By popular request: Building a berry garden
- Planning education opportunities

02.

## After That:

- Seasonal workshops
- Seed Raising

03.

## Our Plan

We plan to run the Māra Kai by using a “Jobs Board” to update our volunteers and the community of which tasks need to be completed in the garden.

We will continue to host weekly collaborative Working Bee’s to bring the community together and get mahi achieved in the garden.

We plan to consult the community regarding what type of plants they would like in the garden, together we will formulate a ‘Planting Calendar”

With our new planting beds, we intend to print out pictures and names of the plants in each bed and how to grow them so every member of the community can join in on growing the produce. This will be a fantastic learning opportunity too!

## Our Purpose

Education  
Community Connection  
Kai Resilience
